More than **20,000 users** trust in
SevenCs technology

SevenCs is a medium-size company with about 120 employees, developing high-end software products for cartography and navigation in professional shipping. Our software components have an excellent reputation around the maritime world.

We would like to strengthen our software team in **Hamburg** and are looking for a

Salesforce Developer (m/f/d)

Primary Responsibilities:
- Maintain and further develop SalesForce and the integrated applications supporting sales, marketing, finance, customer support and strategic initiatives from Operations
- Lead improvement projects and coordinate input from cross-functional teams and external vendors where necessary.
- Documenting changes and improvements
- Train users and manage implementation to ensure increased performance.
- Sales Force Effectiveness (Sales Operations)
- Development, implementation and standardization of sales force reporting tools, and ensure accurate and timely performance measurement on relevant parameters.

Qualifications:
- Bachelors in Business, Economics, Finance or related field
- Salesforce development experience in Apex and Visualforce
- Experience with the SF Lightning platform – preferable with migration from Classic and with Lightning development
- Demonstrate in-depth knowledge of relevant software systems and platforms
- Ability to recognize and interpret business issues/opportunities and recommend solutions through analysis.
- Ability to effectively communicate technical and qualitative information to nontechnical executives through interpersonal, verbal, and written channels.
- Ability to manage projects and multi-task in a deadline-intensive environment.
- Excellent English language skills spoken and in written
