

ChartWorld was established in 2002 with the desire to make commercial shipping safer and more efficient. The main areas of activity include the development of concepts for optimized digital route and voyage planning, the equipping of ships with digital navigation systems and charts as well as the installation of supplementary software products.

Today, ChartWorld is the market leader for ECDIS as a service, and a driver of digital navigation and automated voyage planning tools. The company operates with more than 150 staff working in offices in Germany, Singapore, Limassol, Canada and Japan.

An open minded and team-oriented workforce keeps us competitive and provides opportunities for ChartWorld and its customers. Together we can transform the maritime industry, improve safety and efficiency and foremost a sustainable environment. We like to strengthen our team in Hamburg and look for a:

Work Student - Marine Data Management (m/f/d)

Your Tasks:

- Responsible for digital data processing on ENC Servers, BOs and timeliness of data release.
